DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 17:

Line 5, delete the term [manual] after "a" and before "switch", and insert the term - - hazard - -, after "the" and before "switch".

Claim 18:

Line 1, delete the term [manual] after "the" and before "switch", and insert the term - - hazard - -, after "the" and before "switch".

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Prior art does not disclose a remote starting system that is connected to the vehicle power plant in which a transmitter actuates the remote starting system to start the vehicle power plant. In combination with a hazard switch in the first position can

start the vehicle using the transmitter and the hazard switch in the second position disables the vehicle power plant from starting the vehicle using the transmitter. In which the hazard switch, (as described in the specification see page 5, paragraph 23, lines 30-33), is used to turn on the hazard lights located on a vehicle, as known in the art, typically configured as a two-position push button on the steering column or instrument panel of a vehicle within the vehicle passenger compartment as is known in the art. In which the Prior art search by the examiner failed to find the difference by the prior art of record by utilization of a vehicle hazards switch as disclosed by the application within the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
